

# **RICHARDS EQUIPMENT INC.**

## **COVID-19 Workplace Plan**

### **Replaces All Previous Policies**

**January 12, 2023**

### **Don't Bring It, Don't Share It, Don't Spread It**

#### **1. PURPOSE**

The purpose of this Plan is to prepare Richards Equipment Inc. workplace for operating safely during the COVID-19 pandemic by:

- Implementing measures to minimize the risk of infection to workers and others present at Richards Equipment Inc. facilities;
- Establishing procedures for rapid response if individuals develop symptoms of illness while working or visiting Richards Equipment Inc. facilities;
- Maintaining high levels of sanitation and personal hygiene at the facilities at all times; and
- Ensuring compliance with all applicable Occupational Health and Safety requirements ("OHS regulations") and public health agency guidelines ("Guidelines").

#### **2. ROLES & RESPONSIBILITIES**

##### **2.1 Employer**

As the employer, Richards Equipment Inc. is responsible for the overall implementation of the Plan, including by:

- Providing the leadership and resources necessary for the Plan to be implemented effectively;
- Appointing a competent person to serve as COVID-19 Coordinator;
- Regularly reviewing the Plan in consultation with the health and safety representative ("Representative");
- Monitoring the pandemic situation as it evolves to ensure that the Plan remains timely and in compliance with the most recent Guidelines;
- Ensuring that workers receive the most current information about the pandemic and implementation of the Plan; and
- Monitoring advances in infection control methods and revisiting the Plan every two years even after the pandemic ends to ensure it can be adapted to future public health emergencies.

##### **2.2 COVID-19 Coordinator**

The COVID-19 Coordinator (Health & Safety Coordinator) is responsible for the day-to-day implementation of the Plan, including ensuring that:

- The COVID-19 workplace hazard assessment is carried out;

- Appropriate infection prevention and engineering and administrative controls are implemented to eliminate or minimize identified COVID-19 hazards;
- Medical screening and self-isolation procedures are carried out in a way that is fair, consistent, safe and as minimally privacy invasive as possible;
- All workers receive and properly use the required PPE;
- All workers receive and follow their COVID-19 safety training and instruction;
- All customers, clients and visitors comply with Plan requirements; and
- All COVID-19 incidents are properly investigated and reported to the Ministry of Labour and/or WSIB, if necessary.

## 2.3 Supervisors

Supervisors are responsible for:

- Developing and carrying out the safe work procedures necessary to implement the Plan;
- Ensuring the required COVID-19 field level hazard assessment is carried out before work begins;
- Delivering COVID-19 safety training and verifying that workers understand and are capable of following it on the job;
- Ensuring workers properly use, inspect, clean and store required PPE;
- Enforcing the requirements of the Plan and safe work procedures including, if necessary, via the imposition of discipline against workers that commit infractions; and
- Communicating with workers in self-isolation.

## 2.4 Workers

Workers are responsible for:

- **Not coming to work if they feel ill;**
- Complying with all Richards Equipment Inc. infection control and social distancing rules and COVID-19 safe work procedures;
- Properly using the required PPE; and
- Reporting any violations of this Plan to their supervisor or other appropriate Richards Equipment Inc. official.

## 3. COVID-19 HAZARD ASSESSMENT

### 3.1 Job Classification Hazard Assessment

The COVID-19 Coordinator will create a written inventory of COVID-19 hazards by job classification and/or operations undertaken at the site. Using the inventory of identified hazards, the Coordinator will then perform a COVID-19 hazard assessment by assigning each job classification one of the following levels of exposure:

- Very high;
- High;
- Medium; or
- Lower.

In rating each job classification, the Coordinator will consider COVID-19 risk factors, including:

- Physical distance of workers from co-workers, customers and other persons at the site between and/or employees and customers;
- Effectiveness of current ventilating, air circulation and HVAC systems;
- Operations requiring close contact, e.g., sharing of vehicles;
- Age, respiratory or immune disorders, or other chronic medical conditions or physical characteristics making persons at the site unusually susceptible to COVID-19 infection; and
- Availability of respirator masks and other necessary PPE.

### **3.2 Field Level Hazard Assessments**

In addition and as a supplement to the above job hazard classification, a competent worker or supervisor at the site will perform a COVID-19 field level hazard assessment before work begins.

### **3.3 Review & Revision**

All hazard assessments will be regularly reviewed and revised to ensure they remain to current site conditions and operations and compliant with most recent OHS regulations and Guidelines requirements. Where safe and reasonably practicable, Representative will participate in the foregoing COVID-19 hazard assessment and review.

## **4. COVID-19 SAFETY CONTROLS**

Richards Equipment Inc. will implement appropriate safety measures to control the COVID-19 hazards identified during hazard assessment in accordance with the assigned level of exposure and following principles:

- Where reasonably practicable, Richards Equipment Inc. will take measures that completely eliminate the hazard, e.g., by letting susceptible workers work from home or eliminating operations requiring one or more worker to be in a vehicle at the same time;
- Where elimination is not reasonably practicable, Richards Equipment Inc. will implement engineering controls to minimize COVID-19 hazards, e.g., air-circulating and ventilating systems or physical partitions ensuring people at the work site remain separated;
- Richards Equipment Inc. will also implement administrative controls, either in lieu of or in combination with engineering controls to minimize COVID-19 hazards, including the social distancing, medical screening, cleaning and disinfection and safety training protocols set forth below;
- Following Simcoe Muskoka Health Unit guidelines, regarding indoor public spaces and wearing of masks; and
- As a last resort where COVID-19 hazards cannot be eliminated or engineered away, Richards Equipment Inc. will ensure that all persons exposed to COVID-19 hazards have and properly use the appropriate PPE while present at the site, in accordance with Section 9 below.

## 5. SOCIAL DISTANCING

Richards Equipment Inc. will implement appropriate and reasonably practicable measures to ensure that persons at the workplace remain at least 6 feet/2 meters apart in accordance with Guidelines' social distancing standards and the Richards Equipment Inc. Social Distancing Policy. Such measures may include:

- Reviewing floor plans to determine how to maintain distance between work stations and separate workers from customers and clients
- Installing physical separation equipment such as Plexiglas screening;
- Posting signs warning occupants to maintain social distancing;
- Marking out designated traffic flow paths for high volume areas;
- Marking the distance of checkout areas;
- Limiting the number of persons allowed to enter the site at any one time;
- Staggering work shifts to keep on-site staffing levels to the minimum possible;
- Staggering breaks, restricting access to and/or reducing seating capacity/density in lunchrooms, meeting rooms and other gathering places;
- Substituting virtual meetings for in-person meetings whenever possible
- Where in-person meetings can't be avoided, limiting them to the fewest participants possible and holding them in the biggest space available;
- Allowing employees not needed at the site work from home;
- Establishing and strictly enforcing clear social distancing rules and protocols;
- Using encounter logs, contact tracing apps or other methods to track the physical whereabouts of occupants and ensure they're complying with social distancing protocols while at the site.

## 6. MEDICAL SCREENING

When advised by public health, all employees seeking entrance to Richards Equipment Inc. sites must undergo medical screening at checkpoints established in accordance with the Medical Screening Policy created by Richards Equipment Inc. to ensure that medical screening protocols:

- Respect the privacy rights of persons undergoing screening;
- Are carried out fairly and consistently without regard to race, age, disability, religion, sex or any other personal characteristic protected by Ontario human rights laws;
- Are performed safely by medical professionals or personnel with appropriate medical training using the appropriate PPE and protective equipment; and
- Comply with the most current Guidelines.

Medical screening may include:

- infrared temperature checks
- daily screening questionnaires

## **7. SELF-ISOLATION**

### **7.1 Policy Statement**

Workers who test positive for, exhibit symptoms of or are at otherwise at high risk of infection due to travel or direct and recent contact with a person that has COVID-19 shall not be allowed to enter or remain in the workplace and must go into and remain in self-isolation in accordance with current public health guidelines.

### **7.2 Self-Isolation Procedures**

When required by public health, workers that meet the criteria for self-isolation described above must immediately notify their supervisors, explain their situation, e.g., tested positive or symptomatic, and identify all co-workers and others with whom they had close contact at the facility in the past 48 hours. The supervisor will immediately contact individuals identified as having had close contact with the worker and require them to go into self-isolation. If workers are at the work site at the time their illness, symptoms or exposure are disclosed, arrangements will be made to safely transport them to their homes or other location where they can self-isolate.

### **7.3 Return to Work (Fitness to Work)**

Workers in self-isolation should remain in regular contact with their supervisors and provide notification of their expected return date as soon as possible. Workers returning to work will be subject to medical screening to verify that they can safely return. Medical screening could include a negative COVID 19 test. Return to Work guidelines will follow local public health requirements for self isolation and quarantine.

## **8.0 CONTINGUENCY PLAN FOR OPENING SHOULD RICHARDS EQUIPMENT AN EMPLOYEE POSTIVE TEST (When required by public health guidelines)**

### **8.1: Closure**

Richards Equipment Inc will be closed for the remainder of the day, in order for all employees who have been identified as close contact employees to be tested for COVID 19. Should an employee decide to not be tested for COVID 19, and have decided to wait out the designated self isolation period, they will do so on government paid sick leave. The company will provide rapid tests, should they be required.

### **8.2 Reopening**

Richards Equipment Inc. will follow public health guidelines, regarding employees guidance on returning to work and self isolation. Employees will have to pass the Return to Work (Fitness to Work, Section 7.3 )protocol, for Richards Equipment Inc. to reopen. All work surfaces and areas that are open to the public will be sanitized prior to reopening. Further re-opening will be guided by local public health officials, if necessary.

### 8.3 Paid Time Off

Each employee will be entitled to up to 5 days of leave paid by the company, for a COVID 19 related issues, per calendar year. This will come into effect after 90 days of employment. This includes time off due to children unable to attend school due to illness or school closure, awaiting a COVID 19 test result or due to family members awaiting a COVID 19 test result (and they are unable to pass the Return to Work (Fitness to Work) test). These days will not be carried forward into the following calendar year, and can not be used as time off for issues unrelated to COVID 19 or vacation. It is expected the employee returns to work as soon as possible. This paid leave does not apply to leave required for travel quarantine, if necessary. If the employee is not entitled to Richards Equipment Inc Covid Leave , the employee can access the Ontario Infectious Disease Leave of up to 3 days (maximum of \$200/day), if not already utilized.

### 9. SANITATION & INFECTION CONTROL

Richards Equipment Inc. will implement appropriate sanitary, cleaning and disinfection measures to minimize the risk of COVID-19 infection, including, at a minimum:

- Frequent and regular cleaning and disinfection of surfaces, equipment, door knobs, sinks, handles, keyboards, light switches and other touch points with products approved by Health Canada;
- Keeping wash rooms accessible to employees only unless an emergency, clean and amply supplied with soap, water and paper towels;
- Requiring workers and other users to wash their hands frequently while they are present at and immediately before leaving the facility;
- Posting signs demonstrating proper hand washing techniques in wash areas;
- Implementing safe work procedures to minimize and ensure the safe handling of mail, packages, materials and goods entering and exiting the work site;
- Providing all workers clear COVID-19 infection control information and instruction;
- Requiring all workers to use “respiratory etiquette” and properly cover their mouth (into elbow technique) when they cough and sneeze;
- Disciplining workers who don’t follow proper cleanliness and hygiene requirements; and
- Furnishing and ensuring the proper use of PPE in accordance with Section 10 below.

In addition to the above, Richards Equipment Inc. will consider and adopt other sanitation and hygiene measures to control COVID-19 infection risks that it deems reasonably practicable, which may include:

- Installation or refitting of ventilation, air circulating and HVAC systems or equipment;
- Providing sanitizer dispensers at building entrances and common areas;
- Ensuring ample supplies of hand sanitizing wipes to workers for use at their own work stations;
- Removing doors from hinges;
- Banning workers from sharing tools;
- Removing or restricting use of shared equipment like drinking fountains, coffee machines, kettles, microwaves, fridges, vending machines, water coolers, photocopiers, fax machines and printers;

- Establishing “cough safe areas” in locations where people can cough or sneeze without exposing others to infection risks; and
- Supporting employees when enforcing CLOSED to the public workplace; ensuring all members are following Simcoe Muskoka Health Unit indoor public spaces and mask wearing.

**10. PPE**

When COVID-19 hazards cannot be eliminated or controlled by engineering and/or administrative measures alone, all persons will be required to use appropriate PPE depending on the exposure level assigned to their job classification in accordance with Section 3.1 above.

| Job Classification  | Required PPE  |
|---|---|
| Very High + High<br>(mostly health care workers, EMTs, ambulance and medical support staff) | N95 particulate filtering masks + protective gloves + aprons at a minimum (more extensive protection such as face shields, goggles, SCBA respirators <u>may</u> also be required) |
| Medium + Low (vast majority of workers)   | Non-medical face masks + protective gloves  |

Richards Equipment Inc. will furnish all required PPE to workers at no cost to them and ensure that the PPE:

- Is properly used, stored and maintained in accordance with the manufacturer’s instructions;
- Properly fits the worker, including by fit testing workers required to use tight-fitting masks that rely on an effective seal;
- Is safely discarded if it’s disposable or is properly cleaned and disinfected if it’s designed for reuse;
- Is not shared with any other person.

**11. SAFETY INFORMATION & TRAINING**

All workers at risk of exposure will receive COVID-19 safety information and training about covering, at a minimum:

- How the virus spreads;
- The fact that there’s currently no vaccine for COVID-19;
- How to reduce the risk of infection;
- The measures taken by Richards Equipment Inc. to minimize infection risks;
- What to do and who to call if they believe they’ve been exposed.

**12. POSTING**

Richards Equipment Inc. will post a copy of this Plan on its website and in the workplace in one or more conspicuous locations where all workers will be able to view it.
